

September 2008

Dear Parents of Gifted Students:

The Parent Advisory Committee (PAC) for Gifted Education welcomes you to the 2008-2009 school year. PAC is the "PTO" for all gifted students grades K-12. We work closely with parents, teachers, students and school administrators toward the best possible gifted education program. As WCASD cannot release information to PAC about identified gifted children, **joining PAC is the only way to ensure you receive critical information.**

PAC meets 8 times during the school year to discuss current school programs, host guest speakers, and distribute information to parents and the public about the gifted programs. All parents are invited to attend the open meetings at the **Spellman Administration Building at 829 Paoli Pike from 7:00-8:15 pm.** Our continued success depends on parent participation and we look forward to having your support. We anticipate another great year for PAC as we work together to support our children's education.

Sincerely,
Amy Crawford-Faucher
PAC President
